

Dry ice pellets at -78.5°C convert grease and carbon to fine dust. No scaffolding. No confined space entry. No building modifications.

70m
RANGE

**250–
900mm**
DUCTS

360°
COVERAGE

-78.5°C
DRY ICE

KEY FEATURES

- 01 Enters via standard access panel — no building mods
- 02 Four extending legs grip any duct geometry
- 03 360° spray arm blasts every surface
- 04 Grease sublimates to dust — zero residue
- 05 HD cameras document every centimetre
- 06 TR19 & NFPA 96 compliant reports

TECHNICAL OVERVIEW

FRONT VIEW — CROSS SECTION

DRY ICE ARM — 360° ORBIT

- ① INSERT — LEGS GRIP WALLS
- ② DRY ICE ARM BLASTS GREASE
- ③ TRAVERSES UP TO 70M
- ④ CAMERAS DOCUMENT RESULTS

SIDE VIEW — VERTICAL CLIMB
